

## DROUGHT CONDITIONS

With 42.5 percent of the state in drought (moderate or worse according to the U.S. Drought Monitor), we are back to where we were in November of 2010 in the early stages of this drought. Although drought conditions have improved, reservoir conditions are much worse now (62.2 percent full) than they were back then (80.8 percent full).

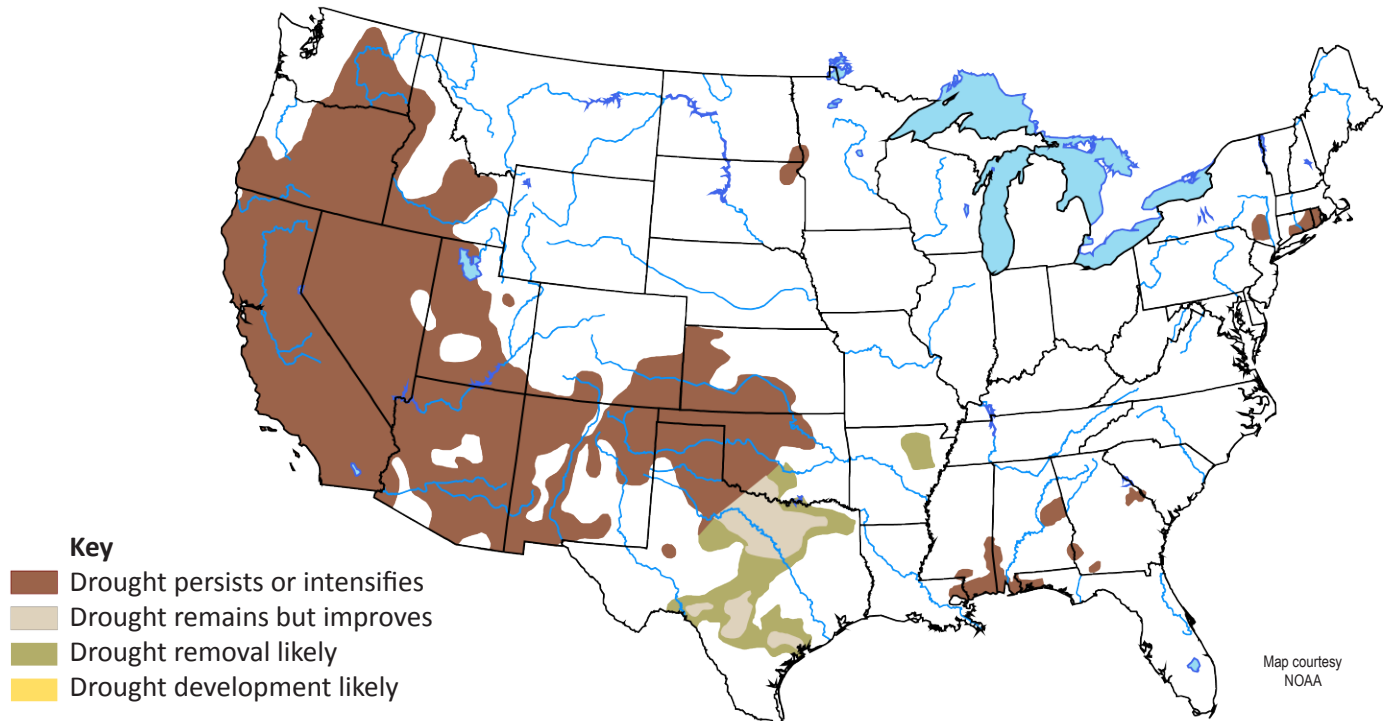

### Drought statistics

- 43% of state currently in moderate to exceptional drought
- 44% a week ago
- 61% three months ago
- 47% a year ago

## U.S. MONTHLY DROUGHT OUTLOOK

The drought outlook for December shows improving conditions for much of the state with persistence or intensification in the Panhandle.
